MORGAN STATE UNIVERSITY
PATUXENT ENVIRONMENTAL & AQUATIC RESEARCH LABORATORY
POSITION ANNOUNCEMENT

Environmental Specialist– Program Manager of the Power Plant Environmental Training Center

DESCRIPTION: Morgan State University Patuxent Environmental and Aquatic Research Laboratory (PEARL), is looking for an Environmental Specialist for the position of Program Manager of the Power Plant Environmental Training Center (PPETC). The PPETC will provide a program of environmental lectures and workshops focused on the interrelationship of aquatic systems and operations of nuclear power plants. These efforts will help develop a trained and qualified diverse workforce for the nuclear power industry. The Program Manager will be responsible for:

1. Developing and presenting a general environmental systems lecture series. This lecture series will be offered as a guest lecture program that will be presented to engineering classes at Minority Serving Institutions (MSIs) around the country; and,
2. Developing and administering an intensive in-house, 3day academic workshop for students and faculty from MSIs to provide hands-on experience in the interrelationship of operational and environmental aspects of the nuclear power industry.

The candidate must be an accomplished leader with at least 15 years of experience as an environmental compliance professional in the electric power generating industry. He/she must be familiar with power plant operations, quality control and have proven successful experience in meeting federal and local environmental regulations related to electric power generation. They should be a highly effective communicator and team leader with the ability to manage a variety of tasks. Familiarity with the nuclear power industry and the Chesapeake Bay environment are desired.

Morgan State University is the premier public urban research university in Maryland, known for its excellence in teaching, intensive research, effective public service and community engagement. The Patuxent Environmental & Aquatic Research Laboratory is located near the Patuxent River (part of Chesapeake Bay watershed) in Saint Leonard, Maryland. Research conducted at the state-of-the-art facility is focused on the Chesapeake Bay and its tributaries and is designed to increase the understanding of coastal ecosystems so that they may be properly managed and protected.

SALARY: Negotiable

APPLICATION: Application package should include (1) detailed CV highlighting your operational and environmental experience, (2) training and certifications, and (3) a list of three references with contact information. Screening of applications begins November15, 2015. To be assured of consideration, application materials should be received by January 31, 2016, but the search will remain open until the position is filled. Questions regarding the position should be directed to Dr. Mark M. Bundy, at mark.bundy@morgan.edu or by phone at 410.586.9700 x5200.

Application package should be sent to:
Dr. Mark M. Bundy
Morgan State University-Patuxent Environmental & Aquatic Research Laboratory
10545 Mackall Rd.
St. Leonard, Maryland 20685
Mark.bundy@morgan.edu
CLOSING DATE: Open Until Filled.
