Services Offered

Individual Counseling offers the opportunity to talk about whatever is on your mind and to explore your options. A professional counselor can help you resolve personal difficulties and learn more about yourself.

Group Counseling: Groups offer an opportunity to meet others who have had similar experience and who also want to pursue personal growth. Most of our groups have 5-8 members, agree to rules of confidentiality, and meet once a week for 1.0 hour. What group members talk about, and when, is up to each individual.

Workshops: Each semester the Counseling Center sponsors a series of workshops designed to help students adjust to the academic, social, and psychological demands of campus life.

Outreach Programs: Counselors are available to conduct workshops and provide information on various topics to classes and organizations. Topics may include: Counseling Center services, time management, coping with stress, depression, self esteem, healthy relationships, diversity and sexual, depression, self and conflict resolution. National mental health screening days in the fall and spring educate and screen students for depression, anxiety, and substance abuse.

Relaxation Room: Equipped with a reclining massage chair, relaxing music, and soft lighting, this room is available as a place to unwind, meditate, and escape life's stresses. Any member of the Morgan community is welcome to use the room by appointment or on a walk-in basis, for 30 minute sessions.

Psycho-Educational

Attention Deficit/Hyperactivity (ADHD) and Psycho-Educational assessments are available for students who may be eligible to receive academic accommodations based upon having specific learning disabilities or ADHD. All evaluations are comprehensive and are completed in the Counseling Center. Students interested in being evaluated for a learning disability must be referred by the Student Accessibility Support Services Office (SASS).

Referrals: Each student's individual needs are considered in making referrals to sources of help outside the Counseling Center. Information is available about a

variety of services and resources on campus and in the community.

Psychiatric referrals are also available for situations in which a psychiatric evaluation and medication might be helpful. Costs for these services are generally covered by student's health insurance.

Crisis Intervention: A member of the Counseling staff is on call to assist students in emergencies. After hours, the campus police, (443)885-3103, or a Resident Director, will page the person on duty.

INTERCOLLEGIATE ATHLETICS The

Intercollegiate Athletic Department's vision is to model excellence as a University program, as well as a National Collegiate Athletic Association Division I-AA program. Thus, the Department has adopted four core values to guide decisions and behaviors in fulfilling its mission and vision:

1. A confident and humble pride.
2. Integrity in words and deeds.
3. Respect for the dignity of ALL stakeholders.
4. Loyalty built on honest and trusting relationships.

Morgan State University provides an extensive National Collegiate Athletic Association (NCAA) Division I intercollegiate athletics program (Division I-AA in football) for students enrolled at the University. The sports offered at the institution include football, men's and women's basketball, cross country, tennis, indoor and outdoor track and field, women's volleyball, softball and bowling. The University is also a member of the Eastern College Athletic Conference, and the Mid-

Eastern Athletic Conference. The University approves and adheres to the regulations of these associations. It also enacts institutional regulations governing the participation of students in athletics.

The Intercollegiate Athletics Program is an integral part of the educational program of the University. The objectives of the athletics program are:

- (1) to provide opportunity for the development of physical fitness and the means for the safeguarding of health,
- (2) to develop good sportsmanship and positive attitudes regarding the use of teamwork in achieving goals, and
- (3) to help skilled athletes enhance their talents and optimize their athletic potential.

The University endeavors to maintain a balance between sports activities and its academic programs. All varsity sports offered by the University provide Athletics Grant-In-Aid to qualified participants. Requirements for admission to the University are the same for all applicants, regardless of participation in athletic activities. Members of intercollegiate teams are college students first; therefore, student-athletes are subject to the same standards that apply to other students and they should maintain satisfactory academic progress in order to continue participation in the Intercollegiate Athletics Program and remain at the University. Any student-athlete not meeting satisfactory academic progress must meet with the athletic administration for further assistance. Intercollegiate Athletics is intended to develop the entire person as an individual capable of making significant contributions to society long after college life is completed.

STUDENT-ATHLETE ADVISORY BOARD

The NCAA Constitution requires all member institutions to establish and maintain a student athlete advisory board. Its purpose is to provide a voice and forum for those individuals who participate in intercollegiate competition. Each team elects a representative to provide feedback on various athletics issues and present the concerns of their fellow student-athletes to the athletics administration. The Faculty Athletic Representative serves as the advisor for this group.

EQUITY IN ATHLETICS DISCLOSURE NOTICE

The Morgan State University Athletics Department is committed to the principle and practice of gender equity. This commitment shall reflect in every aspect of departmental operations. In accordance with the requirements of the Equity in Athletics Disclosure Act, Morgan State University prepares an annual report on its intercollegiate men's and women's athletics program

participation rates and financial support data. The report is on file and may be obtained by any student, prospective student, or member of the public from the Office of the Athletic Director, the Admissions Office, and the Office of Student Affairs.

STUDENT GOVERNMENT ASSOCIATION

Purpose

The Student Government Association (SGA) at Morgan State University is a vital force in the lives of all members of the University community. The University encourages students to appreciate the privileges of and to assume the responsibilities for self government. The activities and responsibilities of the Student Government are deliberately substantive and designed and operated as real life experiences for training students to function effectively and to take responsibility in the greater community of life.

The Student Government Association is the official student governing body at Morgan State University. It strives to instill a feeling of collective work and responsibility in an effort to reiterate that achievement of common objectives depends on a cohesive attitude among students. The SGA stresses that activity goals must be supported by a strong factual base. A clear understanding of problems must be ascertained as a first step of problem solving.

UNIVERSITY MEMORIAL CHAPEL

The primary mission of the University Memorial Chapel is to assist students, faculty, and staff in developing an appreciation for spiritual and moral values in their lives.

To facilitate this end, the University Memorial Chapel interacts with students, the administration, and the faculty of the University as well as leaders, organizations, and institutions in the community. The mission of the Chapel is closely associated with the history of Morgan State University and its ecumenical promotion of spiritual and social values.

History of the Chapel

The mission of the University Memorial Chapel is best understood against the background of its history. In 1867, a group of dedicated ministers met at Sharp Street Church to establish the Centenary Biblical Institute. The Institute grew, and in time, the curriculum was broadened. In 1890, the name was changed to Morgan College, in honor of a generous benefactor. In the 1920's the school was moved to its present site. The Morgan trustees, in 1939, decided to sell the college to the State of Maryland. The proceeds from that transaction were earmarked for the construction of a center for religious activities, the Morgan Christian Center, a parsonage, and an endowment. The buildings were erected on a plot of land adjacent to the campus, and were dedicated in 1941.

In August of 2009, the Morgan Christian Center trustees deeded the property to Morgan State University. The Center was renamed the Morgan State University Memorial Chapel, to reflect the diverse religious landscape on campus.

Spiritual and Moral Values

The philosophy of the University Memorial Chapel is that education should embrace the importance of the student's spiritual values. Appreciation of spiritual and moral values informs the life of the truly educated person. When this happens, a moral context is given to what one does with the knowledge one has gained. The Chapel exists to give direction to the implementation of spiritual and religious values in character formation. With this direction, life decisions are properly grounded.

The University Memorial Chapel exists also as a continuing symbol of the relevance of moral values in higher education. As such, it is recognized not only by the University, but also by the community at large. Its facilities provide space for a variety of activities, for students, faculty, and also for various organizations and individuals in the Baltimore area.

Religious Services

Students at the University reflect a variety of faith traditions. One of the functions of the Chapel is to provide a place for the spiritual nurture of all stu-

dents, faculty, and staff. The Chapel provides a venue for regular formal worship, for informal religious meetings or conferences, and for weddings and funerals. These services are primarily, but not exclusively, for persons associated with the University.

The aim of the Chapel is to provide the best worship models for its clients, inclusive of creative and energetic services, and high quality messages and music. By so doing, the student's level of understanding and appreciation of what worship is all about may be enhanced. The University Memorial Chapel seeks to serve as a learning opportunity for students, as well as an arena within which they may develop their leadership, public speaking, and other key skills.

Ecumenism/Interfaith

The University Memorial Chapel is a place for cooperation and activities for all religious faiths. Our diverse faith communities have carried forward inspiring activities for Morgan State University and the community. We are committed to fostering understanding between various faith communities, which form the mosaic of faith practices at the University and in society.
