<sup>1</sup> Here and elsewhere on this form, the information sought relates only to the condition for which the employee is taking FMLA leave.

<sup>2</sup> "Incapacity," for purposes of FMLA, is defined to mean inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment there for, or recovery there from.

**6a. If additional treatments will be required for the condition,** provide an estimate of the probable number of such treatments:

If the patient will be absent from work or other daily activities because of the treatment on an intermittent or part-time basis, also provide an estimate of the probable number and interval between such treatments, actual or estimated dates of treatment, if known, and period required for recovery, if any:

**6b. If any of these treatments will be provided by another provider of health services** (e.g., *physical therapist*), please state the nature of the treatments:

**6c. If a regimen of continuing treatment by the patient is required under your supervision,** provide a general description of such regimen (e.g., *prescription drugs, physical therapy requiring special equipment*):

**7a. If medical leave is required** for the employee's absence from work because of the employee's own condition (*including absences due to pregnancy or a chronic condition*), is the employee unable to perform work of any kind?

**7b. If able to perform some work,** is the employee unable to perform any one or more of the essential functions of the employee's job (*the employee or the employer should supply you with information about the essential job functions*)?

**If yes,** please list the essential functions the employee is unable to perform:

**7c. If neither “a” or “b” applies,** is it necessary for the employee to be absent from work for treatment?

**8a. If leave is required to care for a family member** of the employee with a serious health condition, does the patient require assistance for basic medical or personal needs or safety, or for transportation?

**8b. If no, would the employee’s presence to provide psychological comfort** be beneficial to the patient or assist in the patient’s recovery?

**8c. If the patient will need care only intermittently or on a part-time basis,** please indicate the probable duration of this need and the schedule of such care:

*Signature of Health Care Provider*

*Date*

*Printed Name of Health Care Provider*

*Type of Practice*

*Address*

*Telephone Number*

The following to be completed by the Employee needing Family Leave to care for a Family Member:

State the care you will provide and an estimate of the period during which care will be provided, including a schedule, if leave is to be taken intermittently or if it will be necessary for you to work less than a full schedule:

Definition of a Serious Health Condition**

A serious health condition means an illness, injury, impairment, or physical or mental condition that involves one of the following:

1. Hospital Care

Inpatient care (*i.e., an overnight stay*) in a hospital, hospice, or residential medical care facility, including any period of incapacity or subsequent treatment in connection with or consequent to such inpatient care.

2. Absence Plus Treatment

- a. A period of incapacity of more than three consecutive calendar days (including any subsequent treatment or period of incapacity relating to the same condition), that also involves:
  - i. Treatment<sup>3</sup> two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (*e.g., physical therapist*) under orders of, or on referral by a health care provider; or

<sup>3</sup>Treatment includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations.

- ii. Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment<sup>4</sup> under the supervision of a health care provider.

### 3. Pregnancy

Any period of incapacity due to pregnancy, or prenatal care.

### 4. Chronic Conditions Requiring Treatments

A chronic condition which:

- a. requires periodic visits for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;
- b. continues over an extended period of time (including recurring episodes of a single underlying condition); and
- c. may cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

### 5. Permanent/Long-Term Conditions Requiring Supervision

A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by a health care provider. Examples include Alzheimer, a severe stroke, or the terminal stages of a disease.

### 6. Multiple Treatments (Non-Chronic Conditions)

Any period of absence to receive multiple treatments (including any period of recovery there from) by a health care provider or by a provider of health care services under orders of, or on referral by a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.) severe arthritis (physical therapy), kidney disease (dialysis).

<sup>4</sup>A regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.
