

MSU SEDS - Students for the Exploration and Development of Space (SEDS)

The 5 W's and H of MSU SEDS

What?

MSU Students for the Exploration and Development of Space Science (SEDS).

Why?

- **There is a great need that is being addressed because MSU has started a Rocketry Academic Program.**
- **MSU ARROW Rocket Project funded by Base 11**
- **Proposed organization is not being filled by any other student organization at MSU**
- **MSU SEDS will be part of the National SEDS enhancing MSU Rocket program.**
- **Will enhance future minority groups participation in Space Programs and recruitment into NASA and private sector space companies.**

When?

Was started once MSU ARROW Project recruited a launch officer.

How?

It is for all MSU Students that are being recruited through the project faculty leads, departmental heads and word of mouth.

Where?

At MSU through the Arrow Project faculties based at the School of Engineering and School of Computer Mathematics and Natural Sciences.

Who?

It is meant for all MSU Students with interest in the exploration and development of space science and technology. Currently has 11 students.

Guiding Principles for Morgan State University Students for the Exploration and Development of Space Science (SEDS)

- ✓ There is a great need that is being addressed by this proposed organization not being filled by any other student organization at MSU.
- ✓ Proposed organization has durability, i.e. it will attract new members on a yearly basis to remain viable even after the initial members graduate from Morgan because of the new Rocketry academic joint program with Purdue University.
- ✓ The membership is willing to actively participate in the Morgan student organization community and develop programs and events that foster relationships with the entire Morgan campus and the surrounding community through Morgan Mile and Arrow Project.
