

Floura Teeter Landscape Architects, Inc. is currently seeking a landscape designer to work as part of an innovative team on the design, development and delivery of projects of the highest quality.

Landscape Designer

The right individual shall possess design, graphic and technical skills in the production of landscape architectural documents, from conceptual design through construction detailing. In addition, the individual shall have skills relating to the technical aspects of landscape architecture, including site design, ecology, grading and drainage, plant material, construction materials, construction detailing and construction administration.

Applicants must have a degree in Landscape Architecture with 0-3 years experience in landscape architecture and urban design with an emphasis on institutional, campus, commercial, housing and transportation design. This individual will be capable of working on multiple projects in various stages of development with concurrent deadlines. The applicant must be able to work cooperatively with the project managers and team to ensure design integrity and graphic consistency. The applicant must have the ability to visualize solutions to problems; and assist with mentoring junior staff members. The firm places an emphasis on professional development and being involved in professional organizations.

A strong sense of design is a requirement & proficiency in AutoCAD and/or Microstation, Adobe Creative Suite, 3D graphics; and hand graphic/rendering skills are preferred. Excellent written and presentation skills are critical. Initiative, enthusiasm, creativity, commitment, and a can-do attitude are a must.

We are a hybrid/flex office. This position would be a mix of in-person and hybrid/flexible work using remote technology. Staff are expected to be in the office as needed for collaboration 2-3 days per week as needed. On boarding will be in person, in the office lasting approximately 2 weeks.

Floura Teeter, a woman-owned firm, is a growing and progressive design firm working in the Mid-Atlantic region. We are seeking innovative and entrepreneurial people who are interested in helping grow the firm. Our website is www.flourateeter.com

Please send resume and work examples to Joan Floura at jfloura@flourateeter.com

Floura Teeter Landscape Architects, Inc. is an equal opportunity employer.

Floura Teeter Landscape Architects, Inc. is currently seeking a Landscape Architect to work as part of an innovative team on the design, development and delivery of projects of the highest quality.

Landscape Architect

The right individual shall possess design, graphic and technical skills in the production of landscape architectural documents, from conceptual design through construction detailing. In addition, the individual shall have skills relating to the technical aspects of landscape architecture, including site design, ecology, grading and drainage, plant material, construction materials, construction detailing and construction administration.
