The Landscape Architecture Accreditation Board (LAAB) requires accredited programs to provide reliable information to the public. This information is intended to help potential students make informed application decisions.

ACCREDITATION

Morgan State University's Master of Landscape Architecture (MLA) program is a professional program within the Department of Graduate Built Environment Studies and the School of Architecture + Planning. The program in landscape architecture is accredited by LAAB. For more information about LAAB, its mission, and accreditation in general, please see: http://www.asla.org/accreditationlaab.aspx.

ABOUT THE PROGRAM

The Master of Landscape Architecture Program offers students a city-oriented focus. The Landscape Architecture program at Morgan challenges students to solve complex problems dealing with population density, architectural context, environmental systems, and public infrastructure. These interwoven physical systems underpin the important social, economic, and political layers of the urban landscape.

The City of Baltimore offers faculty and students an unparalleled range of environments for study and research. These environments include waterfront, commercial center, inner-city neighborhoods, and urban/suburban edge-growth conditions. Landscape Architecture at Morgan offers a design-based, multi-disciplinary education drawing from contemporary theory, technology, and the other graduate programs in Architecture and City and Regional Planning.
