Morgan State has established over 30 international partnerships with institutions in Brazil, China, Ghana, Tanzania, Botswana, Saudi Arabia, Mexico and the Caribbean. In addition, the Study Abroad Office has partnered with some of the best third party organizations to provide a wide range of opportunities for you to choose from to study abroad. The intent of the Study Abroad Office is to help you fulfill your goals by working with you to find a study/intern/volunteer abroad program that meets your needs and interests, as well as to provide you with information about the university’s study abroad policies and procedures. Studying/ interning/ volunteering abroad, and more particularly the application process will require time and hard work on your part. You will need to acquaint and familiarize yourself with how study abroad works at MSU. You will need to identify and determine your goals, talk with your parents, guardians, professors, academic advisor, Career Center specialists and some of your peers who have ventured overseas about your plans and then see if you are up to the challenge.

Some of the study abroad programs are listed on page 2. However, there are many other opportunities listed that are affiliations and third party providers for you to consider.
