

Full Time Contractual Faculty—School of Education and Urban Studies— Science Education

Institution: Morgan State University
Location: Baltimore, MD
Category: Contractual Faculty- Science Education
Application Due: Open Until Filled
Type: Full Time – Contractual

Position: The Department of Advanced Studies, Leadership, and Policy in the School of Education and Urban Studies at Morgan State University, Baltimore, Maryland, is seeking an outstanding 1-year contractual position at the rank of Lecturer, to begin in July 2021.

Qualifications: The successful candidate must have earned a Ph.D. or Ed.D. in Science Education. Candidates should have K-12 experience, teaching experience (graduate level preferred e.g. Practicum in Mathematics and Science Education, Methods of Concept Development in Science Education), ability to teach elementary science methods courses, ability to support doctoral students in writing and conceptualizing research and expose students to major research areas in science education. In addition, the candidate should possess a strong commitment to working with an ethnically and culturally diverse student population and be able to contribute to the mission of the School of Education and Urban Studies and the University.

The University: Morgan State University is a historically black institution with the distinct designation as Maryland's premier public urban university. It is committed at the undergraduate level to the liberal arts, sciences, business, architecture, education and engineering. Undergraduates may pursue studies in 39 areas of concentration as well as in pre-professional fields of pharmacy, dentistry, medicine, medical technology and law. At the graduate level, the University offers 23 master's degree programs, including programs in the arts and sciences, business, education, built-environment studies (i.e., architecture, landscape architecture, city and regional planning), engineering public health, social work and transportation. It also offers doctoral programs in bioenvironmental science, business administration, educational leadership, engineering, English, higher education, history, mathematics education, public health, science education and social work.

The Department: The Department of Advanced Studies, Leadership and Policy produces the largest number of doctoral graduates of any department in the university. It is a vibrant community of scholars drawn from five specialist areas: Higher Education Administration, Mathematics Education, Science Education, Community College Leadership, and Urban Educational Leadership. The department includes 18 full-time and several part-time/adjunct faculty.
