Your evidence-based reading and writing score is 570, which places you in the 71st percentile of nationally representative sample. Your math score is 560, which places you in the 71st percentile of nationally representative sample.

You've met the benchmark.

Look for the green, yellow, or red symbols next to your section scores. They let you know if your scores are at or above the benchmark scores. Benchmarks show college readiness. If you see green, you’re on track to be ready for college when you graduate.

If you score below the benchmark, you can use the feedback and tips in your report to get back on track.

Evidence-Based Reading and Writing: 480
Math: 530

A percentile shows how you scored, compared to other students. It’s a number between 1 and 99 and represents the percentage of students whose scores are equal to or below yours.

For example, if your Math percentile is 57, that means 57% of test takers have Math scores equal to or below yours.

The nationally representative sample percentile compares your score to the scores of typical U.S. students.

SAT® User Percentile compares your score to the scores of students who actually take the test.

You can figure out which skills are your strongest and what you can do to boost your college readiness, go to your full report online and look for Skills Insight™.

Test scores are single snapshots in time— if you took the SAT once a week for a month, your scores would vary. That’s why score ranges are better representations of your true ability. They show how much your score can change with repeated testing, even if your skill level remains the same.

Colleges know this, and they look at score ranges along with scores so they can consider scores in context.

Your online score report shows your score ranges.
