

5/27/2025

To Whom It May Concern,

This joint letter is to affirm our interest in partnering to align the proposed Associate of Arts in Public Health from CCBC to Morgan State University's Bachelor of Science in Health Education Program, Community Health concentration. Any student earning the Associate of Arts in Public Health from CCBC qualifies for transfer under this Program Transfer Guide. This course alignment, as well as our seamless transfer partnership with the Degrees to Succeed program, symbolizes the priority both institutions have in supporting students pursuing a bachelor's degree in the Health Education Program, Community Health concentration.

As part of the process of developing this Program Transfer Guide, staff and faculty from both institutions have:

1. Thoroughly reviewed course articulation and transferability, and
2. Developed a comprehensive guide to the first two years of associate degree study.

In addition, both institutions are committed to discussing how our programs can work jointly to further promote and support student success. It is our intention to fully execute this guide upon approval by MHEC of the CCBC degree plan.

To support the finalization of the Program Transfer Guide, each institution has identified the following staff:

Morgan

Rhonda Shields

Associate Registrar
